BACKGROUND: The Metropolitan Washington Council of Governments (COG) has established a Climate, Energy and Environment Policy Committee (CEEP). The CEEP will provide the COG board with policy advice on climate change, energy, green building, alternative fuels, solid waster and recycling issues, and oversee annual work programs and budgets for these program areas. Increased activity at the federal, state, and local level on these issues prompted the formation of the CEEP to develop policy and guide implementation of the Climate Change Report recommendations.
